

Auto Engine & Electrical Tune-Up

This course will consist of training in Fuel Injection, Ignition Systems, Electronic Control Systems and Engine Tune-Up.

Diagnosis and Testing of Components such as:

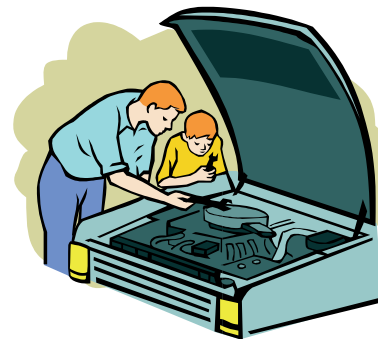

- * Throttle Position Sensor (TPS)
- * Manifold Absolute Pressure Sensor (MAP)
- * Engine Coolant Temperature Sensor (ECT)
- * Air Change Temperature Sensor (ACT)
- * Mass Airflow
- * Cam Sensors

BASIC TUNE-UP:

1. Install new spark plugs.
2. Electronically adjust timing.
3. Fine Tune Engine
4. Check PVC Valve & Emissions System
5. Check Distributor Cap
6. Check Rotor Button
7. Check Ignition Wires
8. Check Charging System
9. Check Filters

Bring in your own car or truck and tune it up with the help of your class.
