

Medical Terminology

The objective of this course is to provide students with a basic knowledge of medical terminology. Because it is part of all the medical programs offered here at South Tech, the students are expected to master the vocabulary of each occupational area.

Students are expected to attend all classes and complete and correct all assigned home exercises. Additionally, students are expected to practice by completing the reviews and pronunciation lists in each chapter. If a student attends class and achieves an average of 80% on quizzes and exams he or she successfully completes the course.

The following topical areas are:

- * Basic Word Structure
- * Organization of the Body
- * Suffixes
- * Prefixes
- * Medical Specialists and Case Reports
- * Body Systems
